

IE; BLINDS®

Sealed Integral Blind Assemblies

FOR ALUMINUM, HOLLOW METAL, VINYL AND
WOOD, FRAMES AND DOORS

Our sealed integral blind assemblies accommodate industry standard, one inch glazing systems in a variety of frame materials. **Dual or single control option** with a choice of blind color selections and control knobs are available. Units are completely assembled and ready for installation. The units provide a solution to costly maintenance and replacement of other types of window treatments. The integral blind systems are cost effective on new construction, remodels and retrofit applications.

A clean, cost effective, and competitive alternative to traditional window treatments.
